

GLOUCESTER SKATING CLUB

Winter 2018 CANSKATE '2' & '3' INFORMATION

Welcome - to all our new and returning members! We're looking forward to a great winter session! Here are a few important messages...

What can we expect?

Skating lessons are a fun and exciting challenge for young children. Our Skate Canada Certified Professional Coaches are fun and enthusiastic individuals who are committed to providing quality skating programs for our members. But parents please remember that ice is slippery and hard, not all children feel comfortable on the ice right away. Our coaches are well-trained in alleviating skater's fears, just be patient and your child will soon be gliding across the ice with a smile on their face!

Where do we go on the first day?

When you arrive at the rink on the first day, please check the poster on the door to the lower hallway for your child's group colour. Once you have your child's skates on, you can go directly to the ice rink's centre door. The group happy faces will be hanging up, please find your child's name tag on the correct colour and place it on their clothing before they enter the ice surface. The coaches will assist the skaters on to the ice for the 5 minute warm-up using the entire ice surface. Then the skaters will be divided into their correct colour groups for the lesson time. Groups will rotate through two lesson stations and the Fun Zone while working on the fundamental movements of Agility, Balance & Control; the ABC's of skating. Skaters will be working on group circuits during their lesson stations and in the Fun Zone. Coaches and skaters will use the entire ice surface during warm up, fast track, group activity and cool down. This approach can look hectic, but is most advantageous to the skater. Our goal is to provide a challenging and fun atmosphere where the skaters can reach their potential while having a good time!

Where do we enter the ice surface?

Many of our classes are back to back. To control the flow of skaters, we ask that skaters enter the ice surface from the middle of the rink at the start of the class and exit at the side door when the class is over. Once your child is on the ice, please go up to the stands to watch the session. This allows the coaches to have their group's full attention during the lesson. **Parents are asked to remain in the arena during the session. Coaches will not be able to leave the ice surface if your child needs to use the washroom, hurts themselves, etc. A parent must also be present in case of an emergency like a power failure in the building.**

How are the skaters divided into groups?

Skaters are placed in groups according to skating ability and age. A portion of each class is the group lesson. It usually takes a few weeks to assess all of the groups and move skaters according to their ability, so please be patient, and we will check every child to make sure they are in the right group.

Do you provide French instruction?

We do our very best to provide French instruction upon request, but skating ability will always be our first priority. **This means we cannot guarantee French instruction.** Each session has French speaking coaches available plus our volunteer Program Assistants who help out our English speaking coaches. Please let us know at registration time if you would like a French speaking coach and we will do our best to provide one.

What should my child wear?

Wear clothing that is comfortable, warm, and light and allows your child to move freely. Make sure to layer clothes so they can remove or add a piece of clothing to suit changing temperatures and exertion levels.

Does my child need a helmet?

All Skate Canada member clubs and skating schools who offer a CanSkate program must ensure **ALL CANSKATE** and **ADULT CANSKATE** participants up to and including Stage 5 must wear a **CSA APPROVED HOCKEY HELMET WHILE ON THE ICE.**

Markers

The coaches will be using markers on the ice when drawing out the skater's circuits. The marker may rub off the ice if your child falls, so please dress your child in dark clothing. We cannot guarantee the marker will come out in the wash.

Do you have a session calendar?

Please ensure you have a copy of the winter session calendar of all special events & cancellations. Copies can also be found on our website www.gloucesterskatingclub.ca.

Skates & Skate Sharpening

Skates are the most important tool a skater has on the ice. Skate Canada working in conjunction with national partner Canadian Tire have developed a program to help make your child's CanSkate on ice experience both positive and fun. The Gloucester Skating Club has teamed up with our local Canadian Tire store on Innes Road to create a 10% discount coupon on all regular and sale priced CanSkate supplies for our members. You can find skates, CSA approved helmets, skate guards and Skate Canada skate bags to outfit your child for their first day of skating lessons.

Here are some things to take in to consideration when purchasing skates and CanSkate supplies for your child:

- Skates should fit snugly and provide support to the ankles. We recommend lace up skates (recreational, hockey or figure); **we do not recommend any of the moulded/plastic skates.**
- Canadian Tire offers a girls' recreational lace up skate made by Reebok, a new line of Jackson figure skates and their complete line of hockey skates that would all be suitable for CanSkate. **Please look for the 'CanSkate approved' on the skate wall at Canadian Tire Orleans.**
- **All skaters working on Stages 1 - 5 must wear a CSA approved hockey helmet for their CanSkate lessons.** Bike and ski helmets will not be acceptable. Canadian Tire offers a complete line of CSA approved hockey helmets for purchase.
- **Other items to consider include a skate bag and skate guards**

Providing your child with appropriate skating equipment will help them improve their skating skills more quickly and will make their on-ice experience more enjoyable.

Are you wondering where to take your child's skates for sharpening? We recommend the skate sharpening shop 'Final Pass' at the Ray Friel Recreation Centre and 'Figure 8/Hockey One' on Industrial Ave. These shops will provide you with a good recreational sharpening.

More Questions?

If you have any questions, please call our office administrator or our CanSkate Director, Sheilagh McCaskill at 613-830-1610.
